

Unlocked Android™ Smartphones

Our Story

In the mobile world, it used to be that you had two choices: to either follow or to settle. Having the latest and greatest technology meant anchoring yourself with a long-term contract or settling for something a little slower, a little less powerful, a little clunkier.

Then it occurred to us: We have 30 years of experience producing amazing electronic devices. All our products are designed to perfectly fit people's needs. We can give you better smartphone options.

Get digitally connected with our top-level processors, high-speed connections, replaceable batteries, front and back cameras and dual-SIM capability that provides a smooth and stable multitasking experience between work and personal life. Enjoy social networks, streaming video, the most popular Android apps, online radio, email, selfies, usies – all the things you need to be at the center of a digital world.

So what's the catch? A costly long-term carrier contract? Think again. All of our smartphones are unlocked, unburdened and unbelievably liberating.

With our custom-built solutions, high-quality components, latest software and customer support from a company that's obsessed with getting every detail exactly right, nothing else compares.

So take the lead, connect with the world, engage in life and forget compromise.

The NUU world is yours.

Our Commitment

Custom-Built Solutions

We design, engineer and manufacture all of our devices and also offer updates.

High-Quality Components

Our smartphones feature top-level processors, front and back cameras, dual-SIM capability and replaceable batteries.

2-year limited warranty

Our devices are covered by a two-year limited warranty from the date of original purchase, with the removable battery being covered for one year.

Experienced Customer & Technical Support

We're here to help you make the most of your smartphone experience by providing solutions for all your needs.

National Retail Presence:

NUU Mobile is an established retail brand, sold by national retailers such as BestBuy, HSN, Meijer, and Target, just to name a few.
