

# FIREPAK™

## VIDEO ILLUMINATOR + PHONE CHARGER

**1500**  
LUMENS

OUTPUT

**5**  
HOURS

RUNTIME

### DESCRIPTION

This revolutionary illuminator + charger enables all smartphone users to shoot vibrant high-quality video at night or in poorly lit spaces—something never before possible! It features two high-performance LEDs whose light output is shaped by two specially developed reflectors that create a blended beam shaped to perfectly fit a 16:9 HD video frame—and with an effective range past 50 feet when in its high 1500-lumen setting.

FirePak's dispersed light pattern and far-reaching range renders breathtaking video images 24/7 and can also be used for still photos. It has four output levels that are controllable via a free Bluetooth app or manually with its integrated slide switch, so the right amount of light can be selected. And it also offers up to 1.5 recharges of your smartphone. Users can easily recharge their phones, or the FirePak itself, via integral USB ports. And, of course, the FirePak is an unmatched security light for navigating—city or countryside—in the dark. Never before has such a product existed.

It'll be indispensable to anyone with a smartphone. SureFire offers high-quality smartphone cases (sold for the iPhone 6 and the Galaxy S5) that permit the FirePak's secure attachment to the phone for worry-free carry and shooting in daily life. Never be left in the dark. FirePak—it's only from SureFire.

Mountable to smartphone via special SureFire case

### FEATURES / BENEFITS

- Two high-performance LEDs and multifaceted reflectors create 1500 lumens of perfect light specially designed to light 16:9 HD video
- Multi-setting slide switch provides easy access to four light-output levels + off
- Integrated rails securely attach to popular smartphones via specially developed SureFire cases
- Energy-dense Li-ion battery provides extensive power & runtime for illumination (video & security) and sufficient power to re-charge smartphones up to two times, depending on model
- USB and Micro-USB ports provide simple capability to charge your smartphone and also to recharge the FirePak itself
- Battery-charge indicator light offers continuous power status

### SPECS
