

**FOR IMMEDIATE RELEASE**

## **VXi Corporation Launches Reveal Pro, the Boundary-Breaking Bluetooth Headset, at CTIA Super Mobility 2016**

*The new VXi BlueParrott Reveal Pro joins the stereo S450-XT and the rest of the BlueParrott line at this year's mobile innovation event*

**DOVER, N.H. (September 1, 2016)** — VXi Corporation announced that it will launch the VXi BlueParrott Reveal Pro™, the newest addition to their BlueParrott® headset line, at CTIA Super Mobility 2016, September 7-9. The newly released VXi BlueParrott S450-XT will also be in the spotlight, along with their other popular BlueParrott mobile products, at Booth #640 at the Sands Expo and Convention Center in Las Vegas.

### **Extend Your Possibilities**

Small Bluetooth® headsets typically have limited range, limited capabilities and a limited ability to deal with ambient noise. Not the [VXi BlueParrott® Reveal Pro™](#). The Reveal Pro's extendable mic boom delivers more powerful noise canceling when it's needed, blocking over 90% of background noise. Class 1 Bluetooth technology gives users up to 300 feet of wireless freedom when paired with other Class 1 devices. (When paired with standard Bluetooth devices, the Reveal Pro can provide up to 100 feet of range.)

In addition, its programmable Parrott Button™ can be set to perform a variety of useful functions, including mute, speed dial and push-to-talk, with the [BlueParrott app](#). Simply put, the Reveal Pro lets users do more, go further and sound better.

### **Your Music Is Calling**

The [VXi BlueParrott S450-XT](#) is the first Bluetooth® headset to deliver both uncompromising wireless audio (powered by aptX® technology) and crystal-clear conversations, thanks to VXi's advanced 80% noise-canceling microphone technology. The new S450-XT also features wireless control of media playback, Class 1 Bluetooth range of 300 feet, and more than 24 hours per charge for music, movies or calls. And like the Reveal Pro, its Parrott Button is user-customizable.

"CTIA Super Mobility 2016 is a natural venue for VXi, since it's designed for the leaders and innovators in mobile," said Mike Ferguson, president and CEO of VXi. "So it's the perfect platform for us to get the word out to decision-makers about our latest innovations, like the Reveal Pro and S450-XT."

VXi will be giving away Reveal Pro and S450-XT headsets every day at CTIA. To enter, attendees just have to visit Booth #640.

### About CTIA Super Mobility 2016

CTIA Super Mobility 2016™ ([CTIASuperMobility2016.com](http://CTIASuperMobility2016.com)) is the largest mobile event in America and the only B2B marketplace dedicated to demonstrating products and strategies for smart cities, mobile-first enterprises and connected consumers around the globe. For three days, more than 30,000 technology and business professionals, 1,000 exhibiting companies and dozens of collocated partner organizations gather to discover next-generation technologies, people and ideas transforming everything wireless. Powered by CTIA for 30+ years, this award-winning trade show advances the association's commitment to foster wireless innovation and enable connected life. CTIA Super Mobility 2016 takes place September 7-9, 2016 at the Sands Expo and Convention Center in Las Vegas.

**Photo Caption:** With a customizable Parrott Button, 300 feet of Class 1 Bluetooth range, and 90% noise canceling, the new BlueParrott Reveal Pro lets users do more, go further, and sound better.
